

Hear from the expert!

“Lead exposure is **extremely serious** for small children's developmental health, but there are **actionable, doable steps** families can take to **reduce exposure.**”

Paul Fast, Executive Director of Maple City Health

What can I do for my child?

Remember there are many ways
to prevent lead poisoning:

- Bring your child to **regular child wellness check ups.**
- Get your **child tested today** and remember the only **healthy level is 0.0.**

○
The Elkhart County Health
Department offers **FREE** testing to all
Elkhart residents under 6.
